Retrospective

Start doing	Stop doing	Keep doing
<ul style="list-style-type: none">• Test in prod	<ul style="list-style-type: none">• Leaving submissions to last day	<ul style="list-style-type: none">• Good team communication
<ul style="list-style-type: none">• Watch code pipeline on push to main		<ul style="list-style-type: none">• Good vibe
<ul style="list-style-type: none">• Add ticket description as it is created		<ul style="list-style-type: none">• Good number of meetings
		<ul style="list-style-type: none">• Agile Ceremonies
		<ul style="list-style-type: none">• Good task tracking

Action items

- ☒ Test automated reminder on prod
- ☒ Add Sprint 4 tickets description

Burndown Chart

Our burndown chart has much more story points than Sprint 2 because it is more granular, and the progress is much better than the previous sprint. We finished all of our tasks for this sprint.
