Project Summary

"My Medical Secretary' (MMS) is a mobile application designed for iOS, android and tablet users. It is being designed for patients who have been diagnosed with a serious illness, such as cancer, and help them organise and understand all of the information and appointments surrounding their diagnosis, which, in return, reduce patient confusion and queries. "

Team Details

Client

- **Name:** Susan Pickering
- **Email:** susan@mymedicalsecretary.com.au

Supervisor

- **Name:** Sable Wang-Wills
- **Email:** sable.w@unimelb.edu.au

Development Team

Product Owner

- **Name:** Aadesh Samdaria
  - **Email**: asamdaria@student.unimelb.edu.au
  - Student ID: 1363757

Scrum Master

- **Name:** Andre Soetrisno
  - **Email**: asoetrisno@student.unimelb.edu.au
  - Student ID: 1185848

Developers

- **Name:** Jonathan Latti
  - **Email:** jlatti@student.unimelb.edu.au
  - Student ID: 1083374
- **Name:** Shaolong Xu
  - **Email:** shaolongx@student.unimelb.edu.au
  - Student ID: 1067946
- **Name:** Yuan Cao
  - **Email:** yuacao2@student.unimelb.edu.au
  - Student ID: 1067709
- **Name:** Sophie von Doussa
  - **Email:** svondoussa@student.unimelb.edu.au
  - Student ID: 1064884
